

K-LOVE has had many positive effects in my life. It is an "Encouraging" part of my every day, all day. It is a constant reminder of the kind of Love & Openness I am supposed to have. It has changed the people around me who ask me what station I'm listening to and then incorporate it in their life. I've seen it change minds and hearts. Young children from broken homes suddenly find a ray hope and are inspired by a song or message that they heard. If K-LOVE suddenly became unavailable, there would be a great loss and void in MANY lives. It offers all who tune in a sane voice in a sometimes insane world.
